---

I contacted the following company that repairs radios for 2 transportation companies  
<http://www.nycomco.com>.

They told me that Loop bus of poughkeepsie and A & e transport of poughkeepsie are under them and that is why the call signs can't be located on the FCC site. They act like it is a big secret and don't even want to tell me despite the freedom of information act. the two bus companies are in a trunked system.

I'm trying so many ways to track it down with no luck.

Anyone out there that is resourcefull against all odds. Thanks in advance for anything that helps.
